

Dávid Juhász

Software Product Manager

A *Product Manager* with a *software developer* background and a *computer science degree*. Focusing on solving meaningful problems in the world via software and technology. Navigate challenges with a constant drive for innovation and the ability to simplify complex problems into manageable steps. Embracing a lifelong learning mindset, continuously striving to enhance my skillset with the intention to lay the groundwork for future ventures. Gained most of my experience in scrappy/small startup-like environments, but I was thriving in an established corporate environment as well. I've led multiple software projects with small teams in the last 8 years, and gained a reasonable amount of hands-on experience about software project management.

Experience

2020 - 8 months

SpeakerZ · Software Project with 3 developers.

Founder · Product Manager · Team Leader · Developer

A mobile app for small offline gatherings that turns a group of people's phones into a stereo speaker system by syncing the device's speakers in case they forgot to bring a Bluetooth speaker.

2020 - 6 months

DiGusta · Software Project with 3 developers & 3 product professionals.

Founder · Product Manager · Team Leader

A mobile app for small offline gatherings that turns a group of people's phones into a stereo speaker system by syncing the device's speakers in case they forgot to bring a Bluetooth speaker.

2021 - 2022

Deutsche Telekom IT Solutions HU · Internship

AI Intern

I gained hands-on experience in AI basics, computer vision, and machine learning in this position. Throughout my internship, I collaborated closely with my team members, contributing to project success with my problem-solving skills and willingness to learn new technologies.

2023 - 8 months

ShopSmart · Software Project with 2 developers & a marketing professional.

Founder · Product Manager · Team Leader · Developer

A grocery shopping platform that creates recipes from discounted items from shops near you and helps you plan your next meal.

2022-2023

Deutsche Telekom IT Solutions HU · Full-time

Solution Engineer / Cloud Engineer

As a Solution Engineer, I design cloud solutions for the German market as part of a team of 20 professionals. Holding a Google Cloud Engineer Associate certification, I strive to continuously expand my knowledge through ongoing courses and training.
